

Dear Judge Hellman,

8/16/21

I write to you today to say thank you very much for hearing my case. Myself and my wife was very happy that we were finally able to put all this untruth that Mr. Thomas and Mr. Barkdale to an halt. I am glad that you were able to see through there many lie's that other judges did not. I was never once called to tell my side of there claims because I was not even aware they had been in court telling these other judges that they were representing me and they were not. I'm still trying to figure out what I can do about them completely ruining my credit. Me and my wife just want to buy our own home. I would like to ask you is the Court able to write me some kind of letter of verification that I was being fraudled when it comes to 37 Sepulchre's property. We, my wife and myself are still trying to understand our rights in this matter and for all the lies of this unimaginative stress on our lives. I think Mr. Thomas & Mr. Barkdale should be sanctioned and I'm not sure how to do it but I'm thinking civil sanction as well. I thank you so much for hearing this case.
